PhD student position: in situ structure of the SNARE complex

A PhD student position (E13 TV-G-U, 65%) is available at Goethe University, Frankfurt, Germany, starting immediately, for initially 3 years, with the possibility of extension.

Prerequisites for admission are a MSc in neurobiology, biochemistry or biology. Also required is experience in cell and molecular biology methods, as well as electron microscopy. Knowledge of C. elegans or other genetically accessible model organisms is helpful. Information about the Gottschalk and Frangakis labs can be found here: https://www.bmls.de/Cellular_and_Molecular_Neurobiology/projects.html
https://www.bmls.de/Electron_Microscopy/aboutus.html

Applications with CV, summary of previous research and publication list, as well as two references, should be sent (preferably electronically) until 31.08.2020 to: Alexander Gottschalk (a.gottschalk@em.uni-frankfurt.de), Goethe University, Buchmann Institute for Molecular Life Sciences, Max-von-Laue-Straße 15, 60438 Frankfurt, Germany. ph.: ++49-69-798-42518.
